Rx Effect - Home Screen

Rx Effect - Locating Appointment Agendas

The screenshot shows the RxEffect Patient Appointment Agenda interface. The top navigation bar includes Home, Patients, Reports, Resources, and Management. The 'Appointment Agenda' tab is selected. A red box highlights the 'Appointment Agenda' tab. A red box highlights the 'Appointment Agenda' link in the 'NOTICES' column for the first patient. The table shows patient names, opportunities (e.g., Blood Pressure, Cholesterol), notices (e.g., 30 to 90 Day Rx, Appointment Agenda), and contact status (e.g., Reached Patient, Not Contacted).

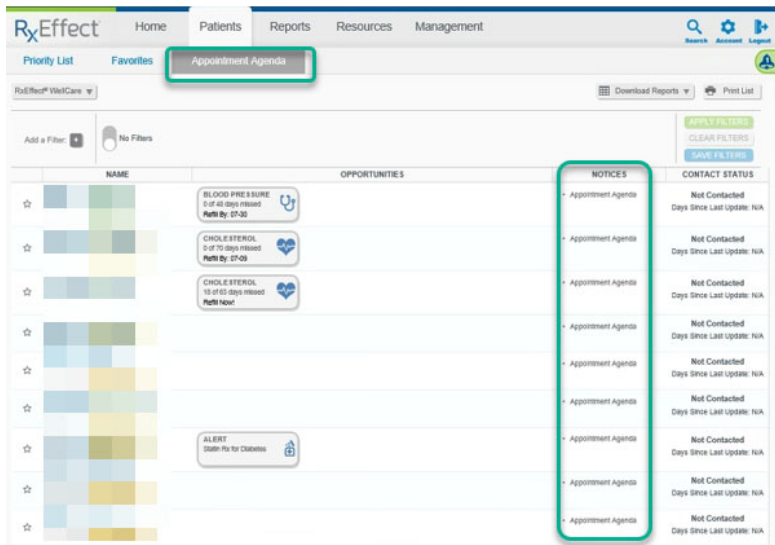

NAME	OPPORTUNITIES	NOTICES	CONTACT STATUS
[Patient Name]	BLOOD PRESSURE 53 of 66 days missed Refill Now!	30 to 90 Day Rx Appointment Agenda	Reached Patient Days Since Last Update: 20
[Patient Name]	BLOOD PRESSURE 56 of 66 days missed Refill Now!	30 to 90 Day Rx	Not Contacted Days Since Last Update: N/A
[Patient Name]	BLOOD PRESSURE 53 of 66 days missed Refill Now!	30 to 90 Day Rx	Not Contacted Days Since Last Update: N/A
[Patient Name]	CHOLESTEROL 62 of 72 days missed Refill Now!	30 to 90 Day Rx	Not Contacted Days Since Last Update: N/A
[Patient Name]	CHOLESTEROL 56 of 66 days missed Refill Now!	30 to 90 Day Rx Appointment Agenda	Not Contacted Days Since Last Update: N/A
[Patient Name]	DIABETES 53 of 60 days missed Refill Now!	30 to 90 Day Rx Appointment Agenda	Not Contacted Days Since Last Update: N/A
[Patient Name]	BLOOD PRESSURE 62 of 66 days missed Refill Now!	30 to 90 Day Rx	Not Contacted Days Since Last Update: N/A
[Patient Name]	BLOOD PRESSURE 62 of 66 days missed Refill Now!	30 to 90 Day Rx Appointment Agenda	Not Contacted Days Since Last Update: N/A
[Patient Name]	DIABETES 62 of 72 days missed Refill Now!	30 to 90 Day Rx Appointment Agenda	Not Contacted Days Since Last Update: N/A
[Patient Name]	BLOOD PRESSURE 64 of 72 days missed Refill Now!	30 to 90 Day Rx	Reviewed, No Outreach Days Since Last Update: 139

* Based on claims data through 06-05-2022. Showing Patients 1 - 10 of 12,493

All Medicare appointment agendas regardless of adherence status are loaded into Rx Effect

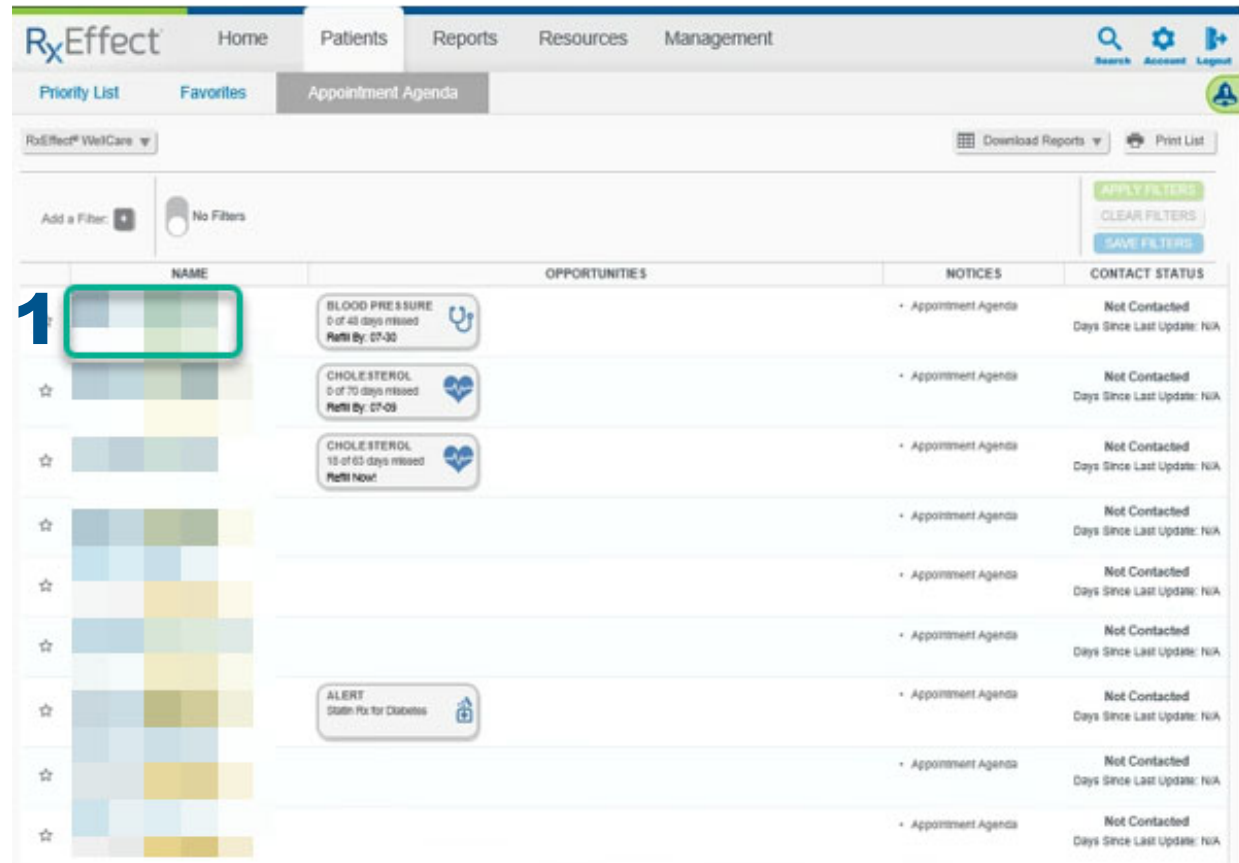

1. The Rx Effect patient list defaults to the "Priority List" which is driven by medication adherence. Appointment agenda patients may appear here if they also have a medication adherence flag
2. All agendas can be viewed by filtering for appointment agenda opportunities within the "Priority List" tab or the Appointment Agenda Tab

Rx Effect - Locating Appointment Agendas

Using the Appointment Agenda Tab, you will have a full list of your Medicare patients with an appointment agenda.

1. Click on the members name you are submitting the agenda for to bring up Patient Details

Rx Effect - Locating Appointment Agendas

SUSPECTED DESCRIPTION	TYPE	SOURCE	DAYS	ACTIVE DISEASES & CONDITIONS	RESOLVED - NOT PRESENT
111 - Chronic Obstructive Pulmonary Disease	Persistence Unassessed	Historic	J410 - SIMPLE CHRONIC BRONCHITIS	☐	☐
79 - Seizure Disorders and Convulsions	Persistence Unassessed	Historic	R569 - UNSPECIFIED CONVULSIONS	☐	☐

▼ APPOINTMENT AGENDA

APPOINTMENT AGENDA

OPPORTUNITY FOR ENHANCED CARE

The Appointment Agenda helps providers close care gaps, ensure patients take medications, and update patient health history. Please have member call 877-210-2786 to complete an annual health risk assessment.

HEALTH CONDITION HISTORY

These conditions are based on the member's medical history as of 06/06/2022. Please use the following form to either submit information about the condition status or print using the Appointment Agenda print button below.

SUSPECTED RX/CONDITION	TYPE	SOURCE	DIAGNOSIS	ACTIVE DIAGNOSIS & DOCUMENTED	RESOLVED / NOT PRESENT
Information not yet recorded. Please press the Submit button in order to electronically submit and clear HCC items. Once submitted, items will be removed.					
111 - Chronic Obstructive Pulmonary Disease	Persistence Unassessed	Historic	J410 - SIMPLE CHRONIC BRONCHITIS	☒	☐
79 - Seizure Disorders and Convulsions	Persistence Unassessed	Historic	R569 - UNSPECIFIED CONVULSIONS	☒	☐
85 - Congestive Heart Failure	Predictive Unassessed	Suspected		☐	☒
108 - Vascular Disease	Persistence Unassessed	Historic	I739 - PERIPHERAL VASCULAR DISEASE UNSPECIFIED	☒	☐
18 - Diabetes with Chronic Complications	Predictive Unassessed	Suspected		☒	☐

Persistence = Dx Codes(s) have appeared in prior claims. Predictive = Possible conditions(s) based on prior claim

APPOINTMENT AGENDA ACTIONS

Consider removing Appointment Agenda for this patient when relevant items have been printed and faxed. If the patient qualifies for new items across the course of the year, a new Appointment Agenda notice will display.

☐ Please remove Appointment Agenda for this patient

Print entire Appointment Agenda for fax submission.

Health Conditions History is to be completed by checking appropriate boxes for each listed row during assessment of the patient, then click 'Submit Checklist'

- 'Active Diagnosis & Documented' – Patient is currently presenting with this condition. Providers must submit a claim with a diagnosis code that maps to the Disease Category listed on the agenda.
- 'Resolved/Not Present' – Patient is not presenting with the condition listed on agenda.
- Provider must submit a claim with a 2022 face to face visit and should submit appropriate codes for conditions the Patient is currently presenting.

- Once all HCCs are checked off – Click “Submit” for agenda submission.
- Clicking “submit” will trigger a green success message, including the date and username of the last submission.
- If a box was not checked for an HCC, the HCC will continue to display until submitted.

RX Effect Excel Condition Mapping (using Disease Condition)

The screenshot displays a Tableau interface with a data table and a sidebar of filter controls. The table has columns: LOB, RISK_MODEL, DISEASE_COND, DISEASE_COND_NAME, DIAG, and DIAG. The sidebar on the left includes a 'Clear Filter From "LOB"' button and a 'Text Filters' section with a search bar and checkboxes for '(Select All)', 'MARKETPLACE', and 'MEDICARE'. A red arrow points from the 'MEDICARE' checkbox to the 'DISEASE_COND_NAME' column header.

Using Condition Mapping a provider can determine if the HCC is linked to corresponding diagnosis categories.

1. Filter Condition Mappings file by Line of Business (LOB) the member is associated with.
2. Filter Disease_Cond_Name (Column D) to match the Suspected DX Condition on the appointment agenda.

HEALTH CONDITION HISTORY

These conditions are based on the member's medical history as of 06/06/2022. Please use the following form to either submit information about the condition status or print using the Appointment Agenda print button below.

- If diagnosis code billed by provider is listed in column E, HCC is linked to corresponding diagnosis categories and condition is Active Diagnosis.
- If diagnosis code billed by provider is NOT listed in column E, condition is Resolved/Not Present and provider bills what is clinically appropriate

- 'Active Diagnosis & Documented' – Patient is currently presenting with this condition. Providers must submit a claim with a diagnosis code that maps to the Disease Category listed on the agenda.
- 'Resolved/Not Present' – Patient is not presenting with the condition listed on agenda.
